

**The Armenise-Harvard Laboratory
of
Synthetic and Reconstructive Biology**

at the Centre for Integrative Biology
(CIBIO) at the University of Trento
has postdoctoral and Ph.D. student positions
available. The available projects focus on the
synthesis of cellular mimics from minimal
components.

Post-doctoral candidates should have a strong
biochemical and biophysical background with
an interest in synthetic biology. Candidates
should send a cover letter, CV, and 2 letters of
reference to Prof. Sheref S. Mansy,
mansy@science.unitn.it.

Students interested in the Biomolecular
Sciences Ph.D. program should write to
mansy@science.unitn.it for information
on the application process.
