

Research Fellowship in Neuroscience

We are seeking a highly motivated research fellow to join a new research project on the effects of therapeutic-drugs on CNS development at the Italian Institute of Technology (IIT), Genoa

The ideal candidate:

- 1) must hold a graduate degree in one discipline of life and natural sciences, medicine, or pharmacy
- 2) has a background in Neuroscience
- 3) is willing to learn a wide variety of experimental techniques (in utero electroporation, in vitro electrophysiology, confocal microscopy, biochemistry, molecular biology, behavior).

Candidates with previous in any of the above techniques are encouraged to apply

**The research fellowship will start in January 2010,
and has the duration of 1 year, renewable for 2
more years/PhD position**

CVs including the contact details of at least two referees should be addressed to laura.cancedda@iit.it
