

Fellowship at CNR – Institute of Neurobiology and Molecular Medicine (ROMA)

In the research group of Fabiola Moretti at CNR-Institute of Neurobiology and Molecular Medicine, Roma, is available a fellowship for up to three years. The research activities will focus on studies of in vivo molecular oncogenesis. The candidate should possess work experience with techniques of molecular and cell biology (particularly cell culture, western blot, IP) and in vivo animal experimentation.

Applications accepted until 1 February 2010
