

Career Perspectives from Four Women in Science

H. Kim Bottomly

Petra Kaufmann

Amira Klip

Naomi Taylor

April 13, 2023 at 11:00

Aula San Raffaele, IRCCS San Raffaele, Milano

- A career in science: perceptions and solutions to common challenges.
- Does success need mentorship and Institutional support?
- What qualities/characteristics make mentorship helpful?
- Does gender balanced representation on committees matters?
- Opportunities/duties and work/life balance: how and if?
- Do non-scientific activities contribute to or hinder career advancement?
- Is good mentoring possible while striving for a successful research program?
- Is networking important? How?

Meet our panellists:
