

The Greene Laboratory at Columbia University in New York City is looking for highly motivated postdoctoral researchers interested in projects related to genome integrity and cancer biology.

Applicants should have a Ph.D. in Biochemistry, Biophysics, or another relevant discipline. Experience with the biochemistry/biophysics of protein–nucleic acids interactions, CryoEM or single molecule imaging is beneficial.

Interested applicants should contact Prof. Eric C. Greene at:
ecg2108@cumc.columbia.edu.

Selected publications:
